

**HAND  
SENITIZE  
MACHINE**

**Wipe  
Your  
Hands**

**Wipe  
Your  
Hands**

# **Product Description:**

**It is an MS free Standing Hand Sanitizer stand with the Pedal switch placed at the bottom.**

**It can hold up to 1000 ml which is the standard bottle size.**

**The stand helps as it is operated by the pedal which avoids direct contact with the sanitizer bottle**

**Thorough hand washing is an essential way to save your health and prevent the spread of illness, particularly fighting against the deadly Corona Virus infection. And if you have hand sanitizer dispenser stand placed strategically throughout your workplace**

**Making hand sanitizer dispenser Stand available right in from the front desk shows your Employees, Clients, and the management that their health matters to you. This generates a positive impression that you have taken all the essential details into account with respect to the prevention of Corona Virus spreading amongst individuals and that matters, both to your employees and your internal/external clients.**
